The South Dakota Department of Transportation (SDDOT) is presenting on the above project and asking for public input.

Due to limitations on public gatherings recommended by the Centers for Disease Control, the department is posting project information on the department’s website rather than presenting documents at an in-person public meeting. Members of the public may submit questions or comments about the project by completing an online form, US mail, or by calling (605) 367-4970 ext. 1802144 and providing verbal comments.

Information will be available on the acquisition of right-of-way and relocation assistance. This project is being developed in compliance with state and federal environmental regulations. Impacts to Colman City Park will be evaluated during the review. Impacts to wetlands, historic properties, and threatened & endangered species will also be reviewed during the project.

Questions or comments should be submitted by June 30, 2021.
