

## Appendix I – Airport Economic Impact Profiles

---

The 2020 South Dakota Aviation Economic Impact Study (2020 AEIS) was conducted in conjunction with the 2020 South Dakota Aviation System Plan (2020 SDSASP) in order to demonstrate the quantitative value of individual airports and the aviation system as a whole, to the state of South Dakota. System-wide results of the 2020 AEIS, including descriptions of methodologies and definitions of key terms, can be found in **Chapter 9. South Dakota Aviation Economic Impact Study** of the 2020 SDSASP. This appendix includes an individual economic impact profile for each system airport. These profiles include impacts for on-airport activities such as airport operations and capital improvements, as well as off-airport activities, such as visitor spending (including spending affiliated with special events like the Sturgis Motorcycle Rally). The total economic impact from each source, whether on- or off-airport, is separated into direct, indirect, and induced impacts. The summation of direct, indirect, and induced impacts generates a total estimate of economic output. It is important to note that with the exception of jobs, all figures have been rounded to the nearest thousand (where applicable) and may not sum due to rounding. The profiles are presented in alphabetical order by the airport’s associated city.

<sup>1</sup> Pierre Regional is classified as a Nonprimary airport in the 2019-2023 NPIAS Report, however this airport crossed the 10,000 enplanement threshold since the 2019-2023 NPIAS Report data was gathered and published. As such, Pierre Regional is shown as Primary Nonhub in this report. For more information on recommended changes to NPIAS classifications, see Appendix E.

<sup>1</sup> Watertown Regional is classified as a Nonprimary airport in the 2019-2023 NPIAS Report, however this airport crossed the 10,000 enplanement threshold since the 2019-2023 NPIAS Report data was gathered and published. As such, Watertown Regional is shown as Primary Nonhub in this report. For more information on recommended changes to NPIAS classifications, see Appendix E.

		<b>Grand Total</b>	<b>75</b>	<b>\$3,068,000</b>	<b>\$4,371,000</b>	<b>\$7,563,000</b>

Notes: Readers are reminded that the figures shown are estimates generated by economic models and not an exact accounting. Totals may not sum due to rounding. Where the table indicates 0 jobs but also includes estimates for earnings, GDP, and economic output, individuals worked less than half-time on airport-related activities. A “-” indicates there was no measurable economic impact activity.

Airport Location		Airport Classification	
Associated City:	Yankton	Federal:	Local
County:	Yankton	State:	Large GA

## Chan Gurney Municipal

YKN

Airport Activity 2018
