RE: P 0100(101)405 PCN 00T7
Minnehaha & Lincoln Counties
From I29 east of the Tea Interchange East and North to I90 near the Timberline
Interchange.
Corridor Preservation

To Whom it May Concern:

The South Dakota Department of Transportation (SDDOT) are consulting with HDR Engineering to provide ROW plans and plats for a proposed East Side Corridor – South Dakota Highway 100 (SD100). SD100 is a proposed limited access highway connecting Interstate 29 with Interstate 90 in the southeastern quadrant of Sioux Falls. The project limits begin at I-29 Exit 73 (CR106 – Tea) and travel in a northeasterly direction. After intersecting SD11 south of 57th Street, the alignment then turns north to follow SD11/Powder House Road. The project ends at I-90 Exit 402 (Timberline Road).

The SDDOT invites you to participate in the first public information meeting for the SD100 Corridor Preservation Project. The public meeting will be held on Tuesday, February 7, 2006. The meeting will be held at the Sioux Falls Lincoln High School from 5:00 to 6:30 P.M located at 2900 South Cliff Avenue. A presentation will be given at 5:30 P.M. to provide a general overview of the project.

The purpose of this meeting is to introduce the project and to gather information from the public. The meeting will be an informal open house with a variety of project background materials available for viewing throughout the evening. In addition, staff will be available to discuss issues and answer questions.

If you have any questions or are unable to attend this meeting but would like to provide questions or comments, please contact Mark Leiferman with SDDOT at (605)773-3433 or myself at (605)977-7740.

HDR would like to apologize for the short notice to the Public Meeting. A public notice was advertised last week in the local papers along with individual landowner letters. Your contact information was inadvertently overlooked while compiling the landowner database. Once again we would like to apologize and look forward to your participation and input this coming Tuesday.

Sincerely,

HDR ENGINEERING, INC.
