* It is the Department's practice that the Scope of Improvement on Grading/Reconstruction projects include work to ensure pedestrian facilities (including sidewalks, curb ramps, push buttons, traffic signals, etc.) meet current guidelines.								
** On projects with the Scope of Improvement "Grading or Surfacing to be determined, ADA Facilities", work on pedestrian facilities <i>will</i> include curb ramp updates, push buttons, but <i>could</i> include sidewalks, traffic signals, etc.								
Those projects in the Transition Plan in the year 2025 are those projects planned to occur between the years 2020-2025.								
Those projects in the Transition Plan in the year 2030 are those projects planned to occur between 2026-2030.
