DBE Goals

DBE Solicitation

DBE Good Faith Effort Package Requirements

Increase Number of DBE Firms

DBE Special Provision Update

DBE – DOT-289 (Certification of DBE Payments)

DBE Supportive Services: Project Solutions Inc.

DBE Goals & Solicitation

- Increased number of projects with goals due to shortfall
- Goals on R/C (Race Conscious) projects may be increased
- Good Faith Effort (GFE) documentation if goals aren't met
- DBE Utilization on R/N (Race Neutral) Projects
- Work with AGC on ways to increase DBE utilization on R/N projects
 - Creating a work group comprised of Contractors, Sub-contractors, DBE's, SDDOT personnel, and our consultant (Project Solutions Inc.)

Good Faith Efforts (GFE)

- A. Submit a contact log of all solicitation efforts
- B. Submit documentation that shows GFE
 - 1. Select work items to encourage DBE participation
 - 2. Solicit all DBEs listed in the work classification and geographic area
 - 3. Solicit all DBEs on the plan holders list in a timely manor
 - 4. Follow up with all DBEs if there was no positive contact.
 - 5. Answer any questions that DBEs have about the project.
 - 6. If you reject a DBEs quote, include a detailed explanation.
- C. Consider qualified DBEs whose quotes are reasonably competitive.
- D. Explain why goal couldn't be met.
- E. Note additional efforts made to secure DBE participation.

GFE Solicitation Log for DBEs

- Timeframe for contacting DBEs
 - DBEs on plan holders list:
 - <u>7</u> calendar days prior to letting
 - Contacting by mail:
 - <u>6</u> calendar days prior to letting
 - Contacting by email, phone, fax
 - <u>5</u> calendar days prior to letting
- If there is no positive contact, a second solicitation must be made by phone, fax or email <u>2</u> business days prior to letting.

This spreadsheet is being provided as one example of how a solicitation log may be formatted. The information required within this spreadsheet is the minimum documentation that is required to show a Good Faith Effort. The below is a example of how the spreadsheet could be utilized if so desired. A blank spreadsheet that may be used is provided on sheet 2. Although submitting a hardcopy of your GFE documentation in a format similar to the following is an acceptable practice, bidders are encouraged to submit their GFE documentation by utilizing the SDEBS software.
