Section 1  Public Information Meeting

1.1 Location
The SD100 Public Information Meeting was held at the following location:
Gloria Dei Lutheran Church
5500 E. 57th Street
Sioux Falls, SD 57108

1.2 Time
The public information meeting was an open‐house style meeting which was held from 5:30‐7:00 p.m. (CST) with a formal presentation. A question and answer time took place following the formal presentation.

1.3 Public Notice
The project team completed the advertisement and press release in accordance with SDDOT guidance. The advertisement was submitted to Argus Leader and Tea Weekly. The advertisement was published twice, November 10, 2011 and November 17, 2011, in the Tea Weekly. The advertisement was published twice, November 11, 2011 and November 18, 2011, in the Argus Leader.

See Attachment A for a copy of the public notice.

1.4 Mailings and Presentation
A postcard invitation was created and mailed to 129 landowners and other identified stakeholders for the Project. The invitations were mailed on November 8, 2011. See Attachment A for the postcard invitation.

In addition, an information sheet was prepared and distributed at the meeting. See Attachment A for the information sheet.

HDR created and presented a presentation that provided a project overview, discussed the 2003 EA Preferred Alternative and the Revised Build Alternative, and highlighted the impact to Harmodon Park. A copy of the presentation is shown in Attachment A.

Finally, displays were also available that noted the alignment of the Revised Build Alternative.

1.5 Sign In Sheet
An HDR representative was stationed at the entrance to the auditorium to ensure each individual signed in appropriately. A total of 62 individuals signed in on the sign‐in sheet. See Attachment A for the sign in sheet.

1.6 Comments Received
Four different methods were available for the public to comment:
• Informal discussion with the project team during the open house portion of the public Input meeting. Individual project team members were responsible for documenting questions and comments they received.
• Question and answer period following the formal presentation at the public information meeting.
• Comment forms received during and after the public information meeting. See Attachment A for the comment form.
• Email to Mark Leiferman, Shannon Ausen, or Steve Hoff.

Verbal comments received included:

• If a landowner sells property to someone else it is possible to show the area that is being considered to be purchased for right of way.
• Diamond Fields Development would like to tie into the proposed bike path along SD100.
• Speed limit issues through Schindler.
• Questions regarding the timeline of the project and construction.
• 57th Street east should be built so there is another crossing over the Big Sioux River on the east side of town.
• Travel issues during construction since 69th Street is a gravel roadway.
• Construction sequencing should consider the traffic in this area.

Written comments received included:

• I was unable to attend the community meeting last evening, and am involved with a group that is contemplating the purchase of land in the area of 57th Street and SD100. Can you enlighten me as to what is involved with the above and/or provide me with a copy of any report you might have?
• One question I forgot to ask last night - do you know when the bid letting for this project (SD100) will be?

Information Sheet
Questions and Answers

**Question:** What is an Environmental Assessment (EA)?
**Answer:** An EA is an assessment of the possible positive or negative impact that a proposed project may have on the environment and on properties along the project. The purpose of the EA is to ensure that decision makers consider the ensuing environmental and property impacts when developing the scope of a project.

**Question:** What is the East Side Corridor (SD100)?
**Answer:** SD100 will be a 17-mile limited-access principal arterial roadway from I-29 Exit 73 (Tea Exit) to I-90 Exit 402 (Timberline Road). Access to the corridor will be minimum one mile spacing from Tallgrass Avenue to 41st Street, one-half mile spacing from 41st Street to Madison Street, and one mile spacing from Madison Street to 60th Street N.

**Question:** Why is there both half-mile and one-mile access?
**Answer:** Access was determined primarily by future land use and also through traffic projections. The land adjacent to SD100 from 26th Street and Maple Street has previously been zoned commercial; therefore, half-mile access is the standard. Access management practices were thoroughly considered to preserve traffic operations throughout this corridor.

**Question:** With access at half-mile or one-mile spacing, how will I get in or out of my property?
**Answer:** Although the ultimate goal of the SD100 corridor is to provide access at the spacing’s listed above, access to existing property may be maintained either via temporary direct access to the corridor or through alternate routes.

**Question:** When will I know if I will have direct access or alternate access out of my property?
**Answer:** As the South Dakota Department of Transportation progresses with design of segments of the corridor, SDDOT representatives will contact and discuss questions and concerns you may have and further discuss the scope of the project including impacts to your property, including right-of-way and temporary easement needs and schedule.

**Question:** When will construction south of 57th Street begin?
**Answer:** The only project along the corridor that is currently scheduled (for 2012) is from south of 26th Street to south of 57th Street. Construction along the remainder of the corridor will depend on primarily on funding. Currently no other projects are scheduled.

**Question:** Why was the project separated into a southern segment and northern segment with respect to the Environmental Assessment?
**Answer:** When the project was first presented to the public, the entire corridor was considered one project. A project of this magnitude cannot proceed without an EA approved by the Federal Highway Administration (FHWA). Therefore, the ability to move forward with the construction project from south of 26th Street to south of 57th Street could not occur until the EA document covering the entire corridor was approved. Currently, the City of Sioux Falls is in the process of identifying potential locations for the relocation of the rail yard from downtown Sioux Falls and one of the potential sites is along Rice Street and in close proximity to SD100. Due to the unknowns related to relocating the rail yard, there would be delays in approving the entire corridor. For that reason, the SDDOT has decided to move forward with a Southern Segment Supplemental EA to avoid issues and delays related to the rail yard relocation and to allow construction of the project from south of 26th Street to south of 57th Street in 2012.

The project from just south of 26th Street to south of 57th Street is currently scheduled for March 2012.

Thanks.

Steve,

One question I forgot to ask last night - do you know when the bid letting for this project (SD100) will be?

Thanks,

Bob Nady

Good afternoon Jean. All the information presented at the Nov. 22^{nd} public meeting can be accessed at [http://www.sddot.com/sd100/pi.asp](http://www.sddot.com/sd100/pi.asp). The hyperlinks under **Main Navigation** on the left edge of this page will also provide additional SD100 information.

Subject: East Side Corrido (SD100) Supplemental Environmental Assessment and Proposed Section 4(f) De Minimis Impact Finding.

Tom:

I was unable to attend the community meeting last evening, and am involved with a group that is contemplating the purchase of land in the area of 57^{th} Street and SD100. Can you enlighten me as to what is involved with the above and/or provide me with a copy of any report you might have?

Thanks very much,
