

**DEPARTMENT OF
TRANSPORTATION**

Public Information

Project Location: Interstate 90 from Interstate 29 (Exit 396) to Cliff Avenue (Exit 399) and east of Interstate 229 (Exit 400)

Project Description: Grading, PCC Surfacing, Replace Structures, Median and Ramp Crossovers

Project Number: IM 0909(107)397 PCN 0A00; IM 0909(36)397 PCN 079C; IM 0909(99)397 PCN 091F; IM 0909(100)397 PCN 091G

Structure Numbers: #50-185-163; #50-189-163; #50-189-164; #50-193-164; #50-193-165; #50-200-166; #50-200-167; #50-201-166; #50-201-167

Public Meeting Information @ <https://dot.sd.gov/projects-studies/projects/public-meetings/#079C>

The South Dakota Department of Transportation gives public notice of its policy to uphold and assure full compliance with the non-discrimination requirements of Title VI of the Civil Rights Act of 1964 and related Nondiscrimination authorities. Title VI and related Nondiscrimination authorities stipulate that no person in the United States of America shall on the grounds of race, color, national origin, religion, sex, age, disability, income level or Limited English Proficiency be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance.

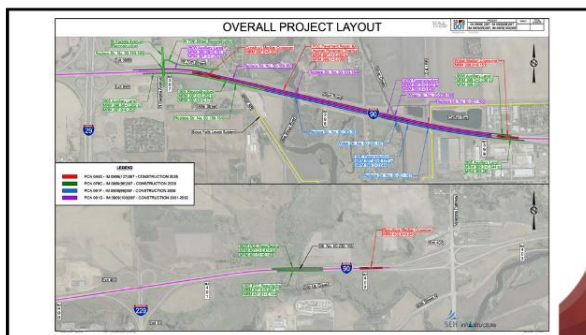

Any person who has questions concerning this policy or wishes to file a discrimination complaint should contact the Department's Civil Rights Office at 605-773-3540.

Public Meeting Open House

Project Location: Interstate 90 from Interstate 25 (Exit 398) to CMF Avenue (Exit 395) and east of Interstate 225 (Exit 400) Project
 Number: IM 0200/1073197 PCN 0A00; IM 0300/00/397 PCN 0750; IM 0600/09/397 PCN 091F; IM 0200/100/397 PCN 091G
 Date: June 24, 2026

Presenter Name: Jennifer Baik, P.E.
 Presenter Job Title: Deputy Project Manager (SEH)

1

4

Mission Statement

We provide a safe and efficient public transportation system.
<https://dot.sd.gov/>

2

Background Information I-90

- Structures: I-90 in 1992 & 1993
Kiwanis Ave. in 1961
- Last Surface Improvements: Westbound 2007 Eastbound 2008.
- Reconstruction Cliff Ave. Interchange 2013
- Shoulder resurfacing and guardrail construction 2025

5

Purpose of the Meeting

- Involve the public in the planning and design process
- Provide a project overview
- Gather input and comments

Outcomes:

- ✓ Background information
- ✓ Proposed project
- ✓ Project schedule

3

Traffic Data and Information

- 2025 Average Daily Traffic (ADT): 13,750
- 2045 Projected ADT: 21,725
- 12.7% Average Truck Traffic

6

Crash History

119 Reported Crashes
(Five-year period from 2021-2025)

- One Hundred Nineteen (119) Total
- Seventeen (17) Rear End
- Thirty (30) Fixed Object
- Three (3) Overturn
- Sixteen (16) Side Swipes
- Thirty-five (35) Animal
- Thirteen (13) Other
- Twenty-one (21) Injuries
- Zero (0) Fatalities

Interstate - City

- Reported crash rate = 2.04
- Statewide weighted crash rate = 1.13 (crashes per million vehicle miles of travel)

7

Access Management

Manage location and number of access points
Provide safe, efficient access to streets and highways by relocating, combining, and eliminating access points.

✓ See handout

10

Why This Project is Needed

Pavement Condition

Freeway Capacity

Improve Safety

Photo of Existing Pavement Showing Repairs and Spalling

Photo of Kiewit Bridge Deck Showing Approach Repairs

8

Right of Way (ROW)

Existing width varies 350 - 480 feet

Right-of-way (ROW) acquisition as needed

Temporary easements as needed

See handout

11

Proposed Typical Section

9

Encroachments

Private property in public ROW
Federal highway regulations for safety

Examples

- Signs
- Private use (parking)
- Landscaping

Notification
Owners of encroachments will be notified by the Mitchell Area Office.

See handout

12

Utility Coordination

Some utilities may need to be relocated.

Utility companies negotiate easements with landowners.

- Xcel Energy
- SDDOT
- Swiftel Communications
- MidAmerican Energy
- SDN
- Summit Utility
- Magellan
- Century Link
- Lumen
- Sioux Falls Utilities
- Vast Broadband
- Midco
- Renner Sanitary
- Minnehaha Community Water

See handout

13

Environmental, Social, and Economic Concerns (Slide 3)

Need to get from Chad B

- **Section 7 of the Endangered Species Act**
The project will be coordinated with the U.S. Fish and Wildlife Service to determine effects to the following species that are known to occur in Union County.
 - Piping Plover
 - Rufa Red Knot
 - Pallid Sturgeon
 - Monarch Butterfly
 - Suckley's Cuckoo Bumble Bee
 - Western Prairie Fringed Orchid

Efforts are proceeding to ensure this undertaking will not adversely affect listed species in Union County.

16

Environmental, Social, and Economic Concerns

Need to get from Chad B

This project is being developed in accordance with applicable State and Federal environmental regulations.

- **National Environmental Policy Act of 1969 (NEPA), as amended.**
- **Section 106 of the National Historic Preservation Act**

Section 106 of the National Historic Preservation Act requires Federal actions to consider the effects of project undertakings on historic properties. The public is invited to provide information on any known historic properties (archaeological sites, historic buildings, historic bridges, etc.). The project will be developed to avoid adverse impact to Junction City Rest Stop Tipi which is eligible for the National Registry of Historic Places.

14

Construction Traffic Control

Five-Year plan

- Year One (1): Crossovers and Patching
- Year Two (2): Kiwanis Avenue and EBL BNSF Bridges & Pavement East of I-229
- Year Three (3): EBL Big Sioux River to Cliff Avenue Interchange
- Year Four and Five (4-5): WBL Cliff Avenue Interchange to I-29 Interchange

I-90 open to Traffic during Phased Construction

17

Environmental, Social, and Economic Concerns (Slide 2)

Need to get from Chad B

- **Section 404 of the Clean Water Act**
Federal regulations require that unavoidable wetland impacts caused by highway construction be avoided, minimized, or mitigated. If you are interested in creating or restoring wetlands on your property, please complete the Wetland Mitigation Registry Form in the handouts.
- **Section 4(f) of the USDOT Transportation Act of 1966**
Project development will include all possible planning to avoid and minimize harm to publicly owned parks, recreational areas, wildlife & waterfowl refuges, or public & private historical sites. There are no known publicly owned parks, recreational areas, or wildlife refuges located adjacent to the project. The Junction City Rest Stop Tipi is a historic site protected under Section 4(f).

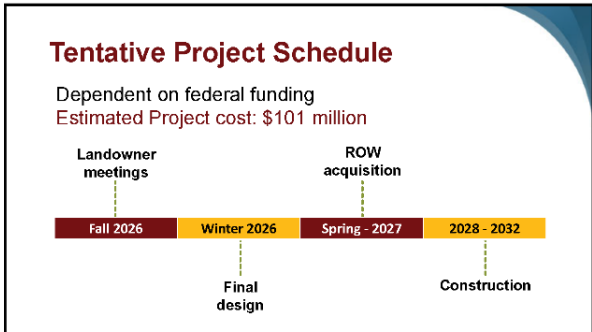

15

Landowner Meetings

Discussion Items

- Temporary easements or Right-of-way (ROW) acquisition
- Fences
- Drainage
- Trees

18

19

Questions or Comments?

- **Written Comment Deadline:**
Friday, July 10, 2026
- **Submit to:**
David Burwitz, P.E.
South Dakota Department of Transportation
5316 W. 60th Street N., Sioux Falls, SD 57107
David.Burwitz@state.sd.us

20

Access Management

South Dakota's Commitment to Safety and Smart
Investment Decisions in Transportation

What is Access Management?

Access Management is the process of providing highway entrances only at locations where they can be provided safely and efficiently.

Consider that each access point added to an undivided highway in an urban or suburban area increases the annual crash rate by 11 to 18 percent on that highway segment. In rural areas, each added access point increases the annual crash rate by seven percent. Overall, driveway-access crashes alone cost South Dakota approximately \$36.5 million each year.

Each additional access point also contributes to congestion. The more driveways on the street, the more places where people are slowing, changing lanes, and turning. A five-lane street can quickly become a parking lot when there are many driveways in each block. When that happens, our valuable transportation investments are wasted and access to adjacent businesses is restricted.

Controlled access facilities are segments of highway where either no access or only limited access to the highway is allowed. Interstate highways are an example of controlled access facilities where no access to the highway is allowed.

Good access depends on the following:

- Limiting the number of conflict points (places where there is a potential for crashes)
- Separating conflict areas
- Reducing interference with through traffic
- Providing good on-site circulation and storage
- Properly spaced traffic signals

How does Access Management affect businesses?

Studies have shown that access management can provide three benefits to businesses adjacent to highways:

- Making sure that drivers can get in and out of businesses without being blocked by other traffic
- Making the highway more attractive by reducing congestion
- Extending the business' effective service area by reducing travel times

These benefits come not from having many driveways, but by having well-planned, well-located, high-capacity access points on the highway.

Even skeptical business owners have found that proper access management results in an improved business climate, as customers can easily get in and out of their business establishment.

For more information, please contact:

Joe Sestak
Access Management Engineer
1306 West 31st St.
Yankton, SD 57008
Phone: (C) 605-661-2255
E-Mail: Joseph.Sestak@state.sd.us

Right of Way Information

Individual Landowner Meetings

During the early stages of the project's design, SDDOT will schedule a meeting with individual landowners having property adjacent to the project. See the following page for an explanation of the landowner meeting.

Property Acquisition Offer

After the project construction plans have been prepared and the right of way limits have been established, you may be contacted by an appraiser or negotiations agent to visit with you for that portion of your property that is needed for construction of the project. Your property will be valued, and a written offer presented to you by a negotiating agent who will contact you for an appointment to make the written offer.

Relocation Assistance Program

This program provides a variety of services and payments to owners and tenants who have personal property affected by the right of way being acquired for the project.

Relocation payments are in addition to payments made for the real property being acquired. To preserve your eligibility for payments, do not move property until you have received a written relocation offer or have contacted John Keyes of the SDDOT Right of Way Program in Pierre. His phone number is 605-773-3746. Anyone not satisfied with the relocation offer made to them may appeal using the procedures described in the Relocation brochure.

The landowner may be reimbursed for various fair and reasonable incidental expenses that may be incurred during the transfer of property to the State depending on impacts to personal property and qualifications.

Right of Way Information Brochures

Two brochures "Better Roads brochure" and "Relocation Assistance brochure" have been prepared which explain the SDDOT's Right of Way process. They provide information on your rights regarding the acquisition of your property and the benefits available to you with regard to the Relocation Assistance Program. These brochures are available at this meeting on the "Sign-in" table. Please feel free to take a copy of each with you. These brochures are available at the following SDDOT website: <https://dot.sd.gov/inside-sddot/forms-publications/brochures>

Individual Landowner Meetings

The purpose of this meeting is to provide you with an opportunity to comment on various issues pertaining to the design of this highway project as it relates to your property.

The following topics will be discussed at the meetings. Please note that not all topics will apply to every property owner.

- Permanent purchase and/or temporary use of your property.
- Locations and widths of entrances to your property: The standard South Dakota Department of Transportation (SDDOT) entrance-width for rural highways is 24 feet. Note: In general, existing entrance widths along rural State Highways are 24 feet or smaller. A maximum width of 40 feet is allowed at locations where it is deemed appropriate and necessary. Entrances in urban areas can vary from 16 feet to 40 feet.
- The goal of the SDDOT is to provide property owners located adjacent to the project with the access they need, and at the same time, enhance highway safety and reduce project costs. In some instances, the SDDOT may seek to combine duplicate entrances. For example, if your property has two or three entrances to the same property that are located close to each other, we would ask you to assess your current entrance needs and consider one entrance location that will meet those needs.
- Permanent fencing adjacent to the highway: SDDOT's fencing policy allows for the replacement of all disturbed fence with like-kind fence.

Two fence types are typically installed: **Type 2:** 4-strand barbed wire with 8-inch wire spacing, and **Type 6:** 32-inch woven wire with 1 strand of barbed wire on the bottom and 2 strands of barbed wire on the top. Page 12 of the "Better Roads brochure" contains added discussion of your permanent fencing options. This brochure will be available at the meeting.

- Temporary fencing adjacent to the highway: Do you anticipate having livestock in pastures located adjacent to the proposed project during highway construction activities?
- Are you aware of any waterlines, drain fields, septic tanks, underground storage tanks, underground power lines, etc. that are located adjacent to the project and may be impacted by construction activities?
- Are there any highway-related drainage or flooding problems located along your property or elsewhere along this section of highway?
- Possible sites for gravel and additional fill material: Are you aware of potential material available for construction that might be located adjacent to the highway?
- Temporary access during construction activities.

Please review your property and be prepared to discuss the above issues, as well as any other issues that you feel are unique to your property. No offers to acquire property will be made at these meetings since revisions to the plans may occur from your input.

DEPARTMENT OF TRANSPORTATION

Encroachments in ROW

Federal Regulations (CFR 23.1) require that the State Highway Department (SDDOT) will be responsible for preserving such ROW free of all public and private installation, facilities, and encroachments.

No improvements shall be allowed to remain in the ROW unless they are deemed in the best interest of the public and will not impair the highway or interfere with the free and safe flow of traffic.

Encroachments are any private property or improvement in the public ROW that is not approved by permit such as:

- Landscaping items
- Fence
- Signs
- Buildings
- Etc.

SDDOT staff will survey the project limits to identify all encroachments. Prior to the project being let to contract, landowners will be contacted by the SDDOT or City Government regarding how each encroachment will be addressed or handled. If it is determined that the removal of an encroachment is required, it will be the landowner's responsibility to remove the encroachment.

For additional information, please contact:

Harry Johnston
Area Engineer
SDDOT Sioux Falls Area Office
5316 West 60th Street North
Sioux Falls, SD 57107
Phone: 605-367-5680
E-Mail: Harry.Johnston@state.sd.us

Environmental, Social & Economic Impacts and Advanced Utility Coordination

Environmental, Social & Economic Impacts

- Project will comply with all state and federal environmental regulations.
- No splitting of neighborhoods will occur because of this project.
- Project will be coordinated with the following state and federal agencies:
 - SD Dept. of Environment & Natural Resources
 - SD Dept. of Game, Fish & Parks
 - US Fish & Wildlife Service
 - State Historic Preservation Office
 - US Forest Service
- For additional information, please contact:

Chad Babcock
Environmental Manager
SDDOT Office of Administration
700 E. Broadway Ave.
Pierre, SD 57501
Phone: 605-773-3727
E-Mail: Chad.Babcock@state.sd.us

Advanced Utility Coordination

Highway projects may require adjustments or relocation of existing utilities located along or crossing the highway project. The SDDOT has an "Advanced Utility Coordinating Process" in place that addresses all existing utility involvement. This process involves meeting with the utility owner and project designers to **review** any conflicts and determine the most cost-effective option of changing the design to avoid the existing utility or adjusting the utility. If the utility is required to relocate, all replacement utility easement acquisition and relocation work will be addressed and coordinated between the landowner and the utility company.

- For additional information, please contact:

Eric Schuldt
Utility Coordinator
SDDOT Office of Road Design
1300 S. Ohlman Street
Mitchell, SD 57301
Phone: 605-995-8068
E-Mail: Eric.Schuldt@state.sd.us

DEPARTMENT OF TRANSPORTATION

Wetland Mitigation Registry Form

Federal regulations require that unavoidable wetland impacts caused by highway construction be mitigated. Examples of acceptable wetland mitigation include:

- Wetland creation
- Wetland restoration – plugging an existing, drained wetland.
- Wetland enhancement - adding buffer around an existing wetland.

The South Dakota Department of Transportation (SDDOT) may participate in the cost of wetland creation/restoration/enhancement, if the wetland can be used to mitigate wetland impacts caused by highway construction.

If you are interested in creating, restoring, or enhancing wetlands on your property, please complete the attached form and mail to:

Chad Babcock
Environmental Manager
SDDOT Office of Administration
700 E. Broadway Ave.
Pierre, SD 57501

Your name will be added to the SDDOT Wetland Mitigation Registry and a SDDOT representative will contact you with additional information.

Yes, I am interested in assisting the SDDOT to mitigate wetland impacts by creating or restoring wetlands on my property.

Name: _____

Address: _____

Phone #: _____ **Email:** _____

Location of property: _____ **1/4 of Section** _____

Township _____, **Range** _____, **County** _____

Please note: Completion of this form does not commit either you or the SDDOT to a mitigation project. It is a statement of interest only.
