

- **PIPE LINING** Added this new note with reference to the new Special Provision, includes guidance on acceptable pipe lining methods for various sized pipes.
- **CULVERT JOINT CLEANING** Corrected pay item in last paragraph from "Pipe" to "Joint".
- **CULVERT LINING** This note was deleted and replaced with the "PIPE LINING" note.
- **ENGINEERED DRAWING AND DESIGN CALCULATION SUBMITTALS** This note was deleted, these required submittals will be included in the PIPE LINING Special Provision.
- **SLIPLINE PIPE** Modified instructions removing guidance to include cellular grout note since that language is already included in this note. Seven paragraphs covering cellular grout were deleted since this specification was added to the standard specifications. Added the following sentence, "Cellular grout will conform to Section 463 of the Specifications."
- **CELLULAR GROUT** The note referring to use of the standard note from Section B was deleted. The cellular grout notes are included within the slipline pipe note and Section 463.
- **TABLE OF CELLULAR GROUT** The note referring to use of the standard note from Section B was deleted. The cellular grout quantity is included within the Table of Slipline Pipe.
- **CENTRIFUGALLY CAST CONCRETE PIPE (CCCP)** This note was deleted and information for this method will be included in the new pipe liner special provision.
- **CURED IN PLACE PIPE (CIPP) LINER** This note was deleted and information for this method will be included in the new pipe liner special provision.
- **FOLD-AND-FORM PVC PIPE (FFPP) LINER** This note was deleted as this method is no longer used.
